EXPERIENCE

Front-End Engineer, Senior Front-End Engineer | Axios   Jul 2021 - Present

- Pioneered advanced reader-engagement analytics and WYSIWYG editors using JavaScript (ES6+), TypeScript, React, and Next.js, enhancing user insights and enabling seamless content creation.
- Orchestrated cross-functional collaboration with designers and project managers, transforming creative concepts into high-impact products that elevated client satisfaction.
- Authored technical specifications to align teams and accelerate feature delivery.
- Led front-end development of a user-friendly Comments feature, driving a 60% increase in user engagement.
- Developed Card Templates to optimize content creation, achieving a 45% efficiency gain and boosting productivity.
- Built a Chat Assistant customization feature to enhance user personalization and experience.
- Designed an advanced front-end event schema for AI LLM analytics, improving tracking and performance optimization.

Front-End Engineer | Trazi Ventures   Oct 2020 - Jul 2021

- Built dynamic front-end interfaces using HTML, CSS, Sass, PHP, JavaScript, React, Vue, Nuxt, and Netlify CMS to enhance user experience.
- Developed the Report Search tool with custom filters, streamlining report retrieval and improving productivity.
- Created a Vue dashboard for visualizing 10M+ records, improving data interaction and decision-making.

Front-End Engineer | Carroll Bradford   Dec 2019 - Oct 2020

- Developed and styled interactive web applications using Vue, JavaScript, and Sass, delivering responsive designs.
- Collaborated with stakeholders and engineers to align on product designs, streamlining workflows and improving product quality.
- Spearheaded a major front-end overhaul of the project and CRM dashboard, contributing to $11M in revenue growth.
- Led company-wide accessibility initiatives, creating best-practice documentation and hosting knowledge-sharing sessions to foster an inclusive development culture.

Front-End Engineer | Independent Contractor   Jun 2016 - Dec 2019

- Designed and developed responsive and dynamic web applications for multiple clients using React, HTML, CSS, and JavaScript.
- Collaborated with small businesses and startups in Miami to create custom user interfaces, improving customer engagement and satisfaction.
- Optimized web applications for performance and accessibility, achieving faster load times and improved cross-browser compatibility.
- Delivered projects on time and within budget while maintaining high-quality code standards.

PROJECTS

ArchitectGPT

Full-stack AI-powered architecture and interior design platform (2M+ users)   Nextjs | React | TailwindCSS | Firebase | TypeScript

EDUCATION

University of South Carolina   Aug 2017 - May 2019

Bachelors of Science, Business Administration, GPA 3.65, Magna Cum Laude
